Segway "Rules of the Road" for Nova Scotia

In Nova Scotia, personal transporters (PTs) are NOT considered to be motor vehicles.
"Personal Transporter" means a self-balancing electric vehicle with two side-by-side wheels and desgined for the personal transportation of a SINGLE PERSON and, for greater certainty, includes a Segway.

No person who is under the age of 16 years shall operate a personal transporter on a highway (sidewalk or roadway), except a person at least 14 years of age may participate in a tour with written consent by a parent or legal guardian.

Where a personal transporter (PT) is operated on a roadway, the operator of the PT is deemed to be a cyclist.
Where a personal transporter is operated on a sidewalk, the operator is deemed to be a pedestrian.
The maximum speed limit of a PT is 7 km/h on a sidewalk; and 20 km/h on a roadway or in a bicycle lane.

A personal transporter shall be operated on the sidewalk IF AVAILABLE, unless it is impracticable to do so.
Every person shall at all times when operating a personal transporter exercise care and caution.

A personal transporter shall not be operated: a) on a roadway with a posted speed limit greater than 60 km/h; b) on a controlled-access highway; c) on a highway where prohibited by the Act or the regulations; d) on private property if prohibited; e) on a specified sidewalk or roadway within a municipality if not part of a highway to which the Public Highways Act applies and prohibited by a municipal by-law.
If there is no sidewalk or bicycle lane available, the PT shall be operated on the far right side of the roadway.

The operator of a PT shall not make a left turn on a roadway except by crossing the roadway in a crosswalk.

Using a hand-held cellular phone or texting is not permitted while operating a personal transporter.

Personal transporters must not be used to tow another person, vehicle or device.

On a roadway, personal transporters (PTs) must be ridden in single file except when passing a cyclist or another PT.

A person operating a personal transporter (PT) on a sidewalk must yield to all pedestrians not riding on a PT.

Every personal transporter (PT) shall be equipped with a bell or horn in good working order and the operator of a PT shall use it to give notice of its approach, including overtaking, on a roadway or a sidewalk.

Helmets are mandatory when operating a personal transporter.

A person operating a personal transporter (PT) shall stand when the PT is in motion.

Municipalities reserve the right to make a by-law restricting or prohibiting the operation of personal transporters.

Personal transporters (PTs) must be in good working order, and shall be equipped with front lights (visible from 100 m) and rear lights (visible from 60 m). Lights must be turned on when the PT is in use.

When required to do so by a peace officer, a person riding a personal transporter on a highway must stop and provide their name, address and date of birth to the peace officer.
